Stop solving problems you don’t yet have.

—Rachel Andrew
Polyfills are a tax.

—Alex Russell
the web
“platform”
It’s hard not to be disappointed by HTML if you’ve developed for iOS, Windows, or other mature platforms as I have.

—Joe Hewitt

What the web is and is not
swipe
tap
scroll
drag
The control which designers know in the print medium, and often desire in the web medium, is simply a function of the limitation of the printed page.

We should embrace the fact that the web doesn’t have the same constraints, and design for this flexibility.

—John Allsopp

My love for responsive centers around the idea that my website will meet you wherever you are—from mobile to full-blown desktop and anywhere in between.

—Trent Walton
World Wide Web

The WorldWideWeb (W3) is a wide-area hypermedia information retrieval initiative aiming to give universal access to a large universe of documents.

Everything there is online about W3 is linked directly or indirectly to this document, including an executive summary of the project, Mailing lists, Policy, November's W3 news, Frequently Asked Questions.

What's out there?
Pointers to the world's online information, subjects, W3 servers, etc.

Help
on the browser you are using

Software Products
A list of W3 project components and their current state. (e.g. Line Mode, X11, Viola, NeXTStep, Servers, Tools, Mail robot, Library)

Technical
Details of protocols, formats, program internals etc

Bibliography
Paper documentation on W3 and references.

People
A list of some people involved in the project.

History
A summary of the history of the project.

How can I help?
If you would like to support the web...

Getting code
Getting the code by anonymous FTP, etc.
